### **Department of Wildlife and Fisheries Wildlife and Fisheries Commission**

Public Hearing—Substantive Change to Notice of Intent  
Spotted Seatrout Management Measures  
(LAC 76:VII.341)

The Department of Wildlife and Fisheries and the Wildlife and Fisheries Commission published a Notice of Intent to amend its rules in the November 20, 2022 edition of the Louisiana Register. The commission proposes to amend the original Notice of Intent to modify the proposed statewide minimum size and bag limits for spotted seatrout. The original Notice of Intent proposed a statewide 13.5 inch minimum size limit with a 15 fish bag and possession limit, but was rejected by the Legislative Oversight Committee on February 1, 2023. The commission proposes to amend the original Notice of Intent to maintain the current minimum size limit of 13 inches and establish a maximum size limit of 20 inches with an allowance for two fish over the maximum length limit, maintain the proposed 15 fish bag limit, and eliminate the ability for charter guides and/or their deckhands to keep a bag limit while conducting a for-hire trip. The amendments to the proposed Notice of Intent also include a requirement for a stock assessment to be provided to the commission no later than the April 2027 meeting and a sunset of the proposed changes at 12 a.m. on January 1, 2028 unless

regulations are modified prior to that date. These changes are being made based upon public comment provided during the comment period for the original Notice of Intent and during a Legislative Oversight hearing held on February 1, 2023.
